

# Rezenerate Consent Skincare Correctives

## DESCRIPTION OF THE FACIAL:

The Rezenerate NanoFacial System allows the targeted products/serums chosen by you and your skin care professional to reach maximum efficacy! The intended result is typically smoother, firmer and younger looking skin, but any number of results can be achieved depending upon the chosen serum/products used. Rezenerate NanoFacials are performed in a safe and precise manner with the use of sterile Rezenerate components. (All serum/products should be discussed separately with your skin care professional.)

## POTENTIAL SIDE EFFECTS:

I recognize there are no guaranteed results and that results are dependent upon age, skin condition, and lifestyle and that there is the possibility I may require further facials to obtain the expected results at an additional cost. After the facial, in rare cases, the skin will be pink and flushed in appearance. You may also experience skin tightness and mild sensitivity to touch or sweating on the facial area.
